ICS Paris implements the International Baccalaureate curriculum, developing inquiring, international students who will shape our world and our future. To complement this Programme, we also offer a varied programme of activities which aims to offer our students different opportunities for learning.

Activities take place daily from 15h45 to 16h30 and from 13h15 on Wednesday. A bus service is also offered after the activity. Parents are required to register online as there are limited places available and many activities become quickly oversubscribed.

Please supply your child with an extra snack on the day of their activities and ensure that they know what they have signed up for. Please register your child's preferred extra-curricular activities on the online form and we will confirm their place a week before the activity starts.

For students not enrolled at ICS Paris, we offer English and Chinese language classes as well as participation in the ICS Music academy. These classes take place on Wednesdays from 13h15– 16h30.
