# Couleurs, art abstrait et pliage

- + Primary, secondary, tertiary, complementary, hot and cold colors ... they will hold no secrets for children. By mixing them together in various proportions, they will learn to make their own palettes themselves.
- +
- + They will then be asked to give free rein to their creativity and to create abstract works with acrylic paint on large formats.
- +
- + But we will go further in this work.
- + Learning to look, reframe, choose only an interesting part of the work and present it in an original way by careful folding such will be this additional challenge!

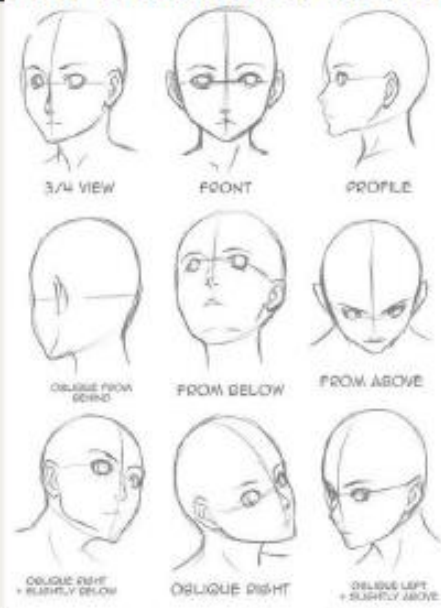

Examples..

# Sculpture et portrait :

- + Learn the basics and proportions to draw a realistic face
- + Draw a sketch
- +
- + Clay sculpture of a face after listening to the instructions for the different steps to follow in order to properly perform the clay modeling

# Photographie

- + Learn to watch
- + Manufacture of a camera obscura and explanation of the process
- + Taking pictures with the camera obscura but also a digital camera
- + Printing photos on photo paper
- + Comments from each of the students about the work Cropping via retouching software
- + Re-print final jobs

# Peinture sur toile à la manière de ...

Through a very playful story, children will learn the history of painting; of his techniques and of the greatest periods, from the natural pigments used in the Middle Ages to the current acrylic painting

We will study several painters, several styles. Children will make their own acrylic artwork on a large canvas in the style of the artist who most touches them

- + Pains de terre
- + Kit pour camera obscura avec les révélateurs
- + Toiles 40X40
- + Peintures acryliques
- + Feutres indélébiles
- + Pochettes papier photo
